

FAIRBANKS'

SCALES,

“Scales should be used in every House and Barn. The proverb says: ‘Deliver all things by measure and weight,’ and it ought to be heeded. Have **Fairbanks’ Standard Scales** in the kitchen and prove which Grocerymen gives weight, and buy of him. Weigh butter and everything sold, and not mistrust that you are cheated. Have a **Fairbanks’** in the Barn and weigh the Pigs and Stock and Grain and Hay and fertilizers, and thus know what is paying and what is not. A little practice in this line will pay a hundred fold in money and satisfaction.”—*American Agriculturalist.*
