

# J. F. FRUEAUFF'S EUROPEAN COLLECTION AGENCY,

[ESTABLISHED 1860.]

Columbia, Lancaster County, Pa.

---

## CORRESPONDENCE SOLICITED.

Scattered throughout the United States are many persons, Europeans and their descendants, who have claims for debts, or inheritances, upon persons and estates in

Germany, Holland, France, or Great Britain.

These are often old, and difficult of proof, but none the less good, and if carefully and energetically conducted, large sums can frequently be secured. A single case will not warrant an attorney in preparing himself with all the needed forms, and studying up the various local statutes covering such collections, but where many of them are gathered together, it can be done to great advantage for the claimants. With this object in view, I commenced the collection of such claims, in 1860, after having previously studied and traveled several years in Europe, where I made the personal acquaintance of leading and reliable resident attorneys, who co-operate with me in these collections. Since then I have collected numerous claims, and now have a large number in process of collection. Many persons know of such claims who are interested in having directions as to how to proceed, or, when commenced, how to go on. To all such I can offer special inducements.

Being known to all the Banks and Bankers, Judges and Attorneys, of this county, as well as business men of this town, I take pleasure in referring to any of them.

Parties may address me in either French, German, or English, and will be answered in whatever language preferred.

 Any legal business or collections in Lancaster County, Pennsylvania, promptly attended to. Address
