—o—

They have just erected, at a cost of \$30,000,

A Foundry capable of turning out TEN TONS of Stoves per Day,
Which will, for the future, always ensure us a full supply
on hand.

As we import our Tin Plate, Copper, Sheet Iron, &c, directly from Liverpool, we feel confident that we can now furnish our customers with all articles in which we deal, or manufacture, on better terms than they can procure them elsewhere.

Sincerely thankful for past favors, we will endeavor to merit a continuance of the same.
